

# News from the BHS Library!

The BHS Studio was recently transformed into travel agencies and airports from around the Spanish-speaking world by Mrs. Nolan's Spanish IV students! The students performed as travel agents and tourists entirely in Spanish. The skits were recorded using various "virtual" sets on the Studio's blue screen, making it possible for even a "ghost" to appear in one of the skits! Two Spanish IV classes participated in this project and one video was made for both classes to watch.

It's wonderful to have an opportunity to integrate the Studio technology into classes at BHS. Adiós! ~Mrs. Jerome
