

News from the BHS Library!

Students in Cecilia Nolan's Spanish V class have been engaged in an international community service project by writing stories in Spanish to send to children in an orphanage in Panama. Our BHS students first read a legend based in Mexico then created and illustrated their own legends based in Maine! These wonderful stories in Spanish were laminated and bound in the Library and will soon be delivered to an orphanage outside of Panama City, Panama. (Stay tuned for details of their delivery!) Mrs. Nolan has been doing this project for ten years but this is the first year that she has integrated technology into the process; the class wrote and shared their stories using Google Classroom, which provides better organization, communication and feedback on revisions. ~Mrs. Jerome
