***Where the Rain Doesn't Reach* by Brian Pressley**

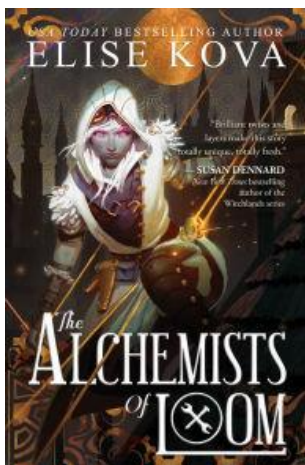

“Jepp lives alone above a storm-ravaged Earth in the abandoned system of space stations and moon colonies. When he discovers a hidden and technologically advanced colony on the moon, he has one chance to join its ranks: get them water. The catch? There's not enough water anywhere in space except possibly in the abandoned space elevator, still tethered to the Earth. Jepp wants in, but how far will he go to get what he wants?”

“Fantastic Read...Fabulous Ending...Didn't see that coming!”

***The Novice (Summoner Trilogy #1)* by Taran Matharu**

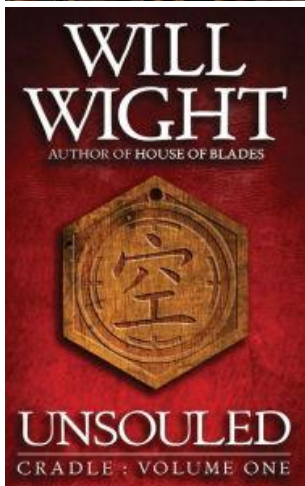

“In this New York Times-bestselling novel full of action and adventure, a blacksmith's apprentice can summon demons. But can he win a war? Fletcher is working as a blacksmith's apprentice when he discovers he has the rare ability to summon demons from another world. Chased from his village for a crime he did not commit, Fletcher must travel with his demon, Ignatius, to an academy for adepts, where the gifted are taught the art of summoning... With no one but Ignatius by his side, Fletcher must decide where his loyalties lie. The fate of the Empire is in his hands...”

***The Alchemists of Loom* by Elise Kova**

"A heart-stopping adventure! Elise Kova reaches new heights with this fast-paced triumph of steampunk, fantasy, and a touch of romance. The Alchemists of Loom is a must-read!"

"Prepare to have your mind blown. *The Alchemists of Loom* is the perfect mashup of genres, with a killer heroine, fiery romance, and friendships that run as deep as blood."

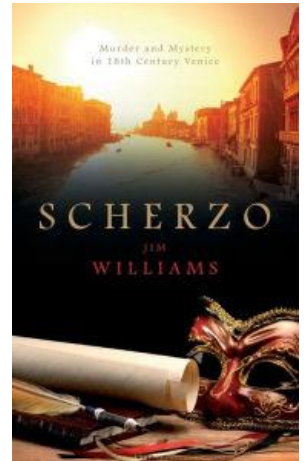

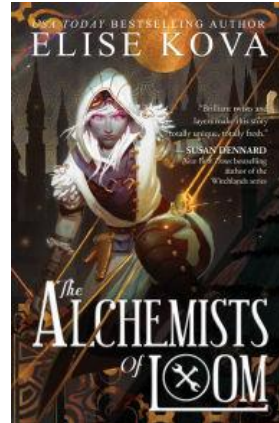

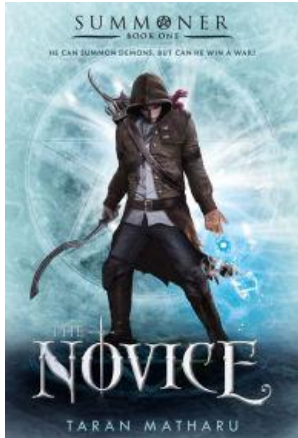

***Unsouled (Cradle: Volume One)* by Will Wight**

“This is a classic hero's journey set in a universe of godly fighters and monstrous remnants, where the cultivation and control of life energy known as madra is the basis of civilization on the world of Cradle.”

“Fantastic...Fast-Paced...Hypnotic”

Brian Pressley

+ Follow

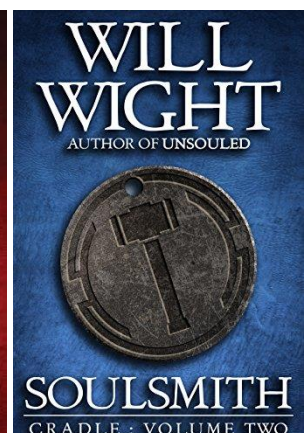

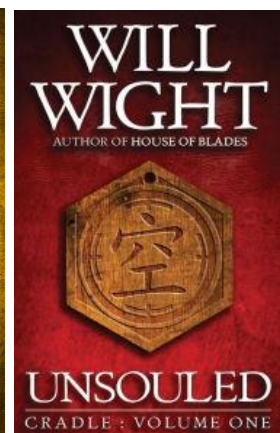

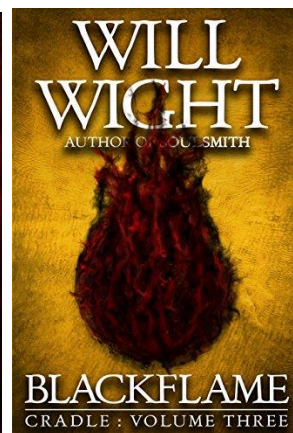

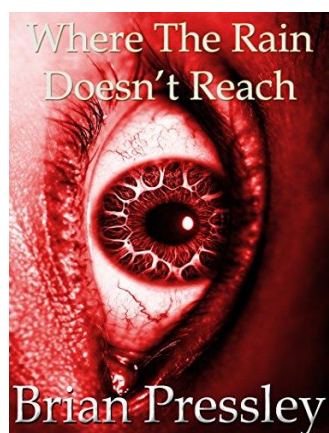

Brian Pressley is a physics teacher and writer living with his wife and two daughters in Maine. He has had books published on mathematics, chemistry, physics, biotechnology, forensics, and general science education. His writing history also includes a large number of stories in the science fiction and fantasy genres. Digital publishing has finally made it possible for him to start sharing those stories with readers everywhere.

The Familiar by Brian Pressley

"Young Terence escapes a world of deprivation only to find himself apprenticed to an aging wizard who soon spirals into obsession. As the wizard grows more and more powerful, the young man must try to survive the approaching threat from powers beyond his understanding."

"Dark Fantasy Fun" "Beautifully crafted"
