September 5, 2017

Dear REAL School Community,

We are excited to share the news that we are now in our new building on the Brunswick Landing Campus! It is a beautiful space, a great opportunity for a fresh start, and a true testament to our commitment to positive change for all of our students.

We are grateful to our innovative builder, Thomas Wright, and his dedicated team, who worked tirelessly this past year. They have created a warm and inviting educational space with environmentally conscious, cutting-edge design features, such as LED lighting, heat recovery system, passive solar, solar panels, and repurposed salvaged materials. (You can read more about the renewable energy efforts impacting the REAL School and its community in *The Forecaster*.* The builders have even used the school building itself as a lesson--the exposed infrastructure is designed to help the students understand all of the unique features of the construction.

We are proud of the space, our students, and our staff, and we invite you to an Open House Celebration and Ice Cream Social: **Wednesday, September 20, 4:00-6:00 pm.**

Please stop by! We look forward to the many partnerships and collaborations that will be fostered in our new location with families, businesses, services, and local resources. We hope that you can come for part or for all of this REAL School event!

Please contact me if you have questions.

Thank you for your ongoing support,

Martin Mackey
Principal
