

The REAL School Advisory Council

We are honored to work with this amazing group of educators. We are grateful for the guidance and support that you are providing as we continue to grow the REAL School. As we move forward we are harnessing this groups expertise and insight to continue to provide unique educational opportunities for students.

This is a new volunteer council, which provides **ADVOCACY AND SUPPORT** as we carry out our mission. Each member shares unique insight around issues the REAL School has bravely taken on. The REAL School has never been a brick and mortar institution; it maintains a fundamental philosophy that all students deserve a unique opportunity to explore their social, emotional, behavioral and academic goals.
