## Skill Sheet – **VENN DIAGRAM DOODLING**

**Skill Description:** Practice using a Venn diagram as a creative tool to combine basic shapes into new, more complex designs. This will improve your creative ability to combine different things into new, unique ideas.

**Materials needed:** Pencil, other drawing and coloring materials as needed.

**Directions:** Look at the Venn diagram on the back of this paper.

1. In the 3 outer sections of the diagram, draw 3 simple patterns, each based on a different basic shape (see options on back).
2. Where the outer sections overlap, combine your basic shapes into 3 new patterns (slightly more complex).
3. Where all three sections overlap, combine all of your basic shapes into a new, very complex pattern.

**Follow these directions carefully, or your work may not count!**

## Basic pattern options (use your own ideas, if you wish):

- Stripes
- Polka dots
- Wavy lines
- Triangles
- Zigzags
- Checkerboard
- Concentric circles
- Teardrops
- Spider's web
- Blades of grass
- Leaves
- Tree branches
- Spirals
- Fish scales
