

Editing a Movie with YouTube

1. Download video from Google Drive >. Meet Recordings

2. Open YouTube from your launcher.

3. Click the Create option in the upper right.

4. Click Upload Video

5. Under Details: Type in a Title

6. Scroll down to Audience and click, Yes, it's made for kids

7. Click the Visibility tab at the top of the screen and choose Unlisted.

8. Click Publish

9. A notice of uploading will appear, click Close

10. Once the video is uploaded, click the Pencil to the right of the thumbnail, this represents details.

11. In the left hand column choose Editor, if it is your first time click Get Started

12. Click the Trim, and slide the right and or left ends inward.

13. Preview the Trim

14. Undo Changes or Save

15. Click Save again on the Confirmation Page. The video will be processed.
