

“Camping” SJCS

When we go out camping there is so much we can do
Hunting, fishing, sailing swimming go four-wheeling too
We can go out hiking or go biking ‘till we’re tired
when the sun has gone to bed we’ll sing around the fire

Going Camping, that’s the life for me
Camping in the State of Maine, well that’s where I should be

When we go out camping there’s a lot of food to eat
Fish and clams and watermelon make a special treat
Roasting on the fire we’ve got hot dogs and some steak
smore and nuts and berries and potatoes hot and baked

Going Camping, that’s the life for me
Camping in the State of Maine, well that’s where I should be

Camping in the state of Maine there’s animals to see
Deer and moose and black bears and an owl in a tree
There’s frogs and fish and snapping turtles hiding by the lake
Dragonflies and chipmunks and a baby garter snake

Going Camping, that’s the life for me
Camping in the State of Maine, well that’s where I should be

When you go out camping there’s a lot that could go wrong
You could go to eat your food and find that it’s all gone
The water could be freezing cold, your tent could spring a leak
Your brother smells like bug dope, hasn’t showered in a week

Going Camping, that’s the life for me
Camping in the State of Maine, well that’s where I should be
