Come out and Play - Hebert

Oh give me a shirt that is covered with dirt And a day on the field with my team I got a football in hand, hear the roar of the fans it's just like we're living a dream

Come, come out and play Where the boys and the girls seize the day Join me and my crew, teammates through and through and it feels like the fun lasts all day

Oh give me a land where you can't use your hands and I shoot and I score with the ball With the smell of the grass, We can run, we can pass It's the best thing to do in the fall

Come, come out and play Where the boys and the girls seize the day Join me and my crew, teammates through and through and it feels like the fun lasts all day

Oh give me a mat that is pillowed and fat in case I fall off of the beam Cause I might lose my grip when I'm landing a flip It's okay I'll take one for the team

Come, come out and play Where the boys and the girls seize the day Join me and my crew, teammates through and through and it feels like the fun lasts all day
