

"Food" - Yuods nukis

Oh give me some brunch, I can eat it for lunch
With some waffle sticks, syrup and eggs
Sausage and toast, it's the meal I love most
Serve it up now please don't make me beg

**Food, feed me some food
O please, I don't want to be rude
But it's time we should eat, so give me a treat
One bite will fix my attitude**

Oh give me some fish, it's my favorite dish
Or spaghetti and meatballs so fine
Some curry and rice would be kind of nice
Hurry up before I start to whine

**Food, feed me some food
O please, I don't want to be rude
But it's time we should eat, so give me a treat
One bite will fix my attitude**

Would you please let me cook, I just got a new book
There's a recipe I want to try
I like it a lot, I can cut I can chop
I'll make a hot chicken pot pie

**Food, feed me some food
O please, I don't want to be rude
But it's time we should eat, so give me a treat
One bite will fix my attitude**

You can keep your cold soup, just give me a scoop
of my favorite food of them all
I'll be sure to scream if I don't get ice cream
a big double-decker so tall.

**Food, feed me some food
O please, I don't want to be rude
But it's time we should eat, so give me a treat
One bite will fix my attitude**
