

Mrs. Wilson's Class

**Planets**

*(to the tune of "This Land is Your Land")*

I am the smallest  
I am the closest  
Next to the sun  
And I'm the fastest  
My years are shortest  
They just take 88 days  
I am the planet Mercury.  
Look in the night sky  
And you can see me  
The brightest planet  
Goddess of Beauty  
I may look cool  
But I'm too hot for you  
Don't you know Venus is my name.  
I am the home world  
Of sons and daughters  
I have green grass  
And sparkling waters  
I have just one moon  
My friend named Luna  
I am the planet you call Earth  
I am the red world  
I glow like fire  
That's just my surface  
With lots of iron  
I am the War God  
But I'm your neighbor, too  
I am the planet you call Mars.

I am the giant  
With one red eye  
Swirling gas ball  
God of the Sky  
You won't believe it  
I've got 79 moons  
I am the planet Jupiter.  
Jupiter's father  
The Lord of Time  
The greatest rings  
They are all mine  
My friend named Titan  
He is my greatest moon  
Don't you know Saturn is my name.  
I am the seventh  
So far away  
There's 17 hours  
In my day  
I get so dizzy  
I orbit on my side  
I am the planet Uranus.  
I am the farthest  
My years are longest  
God of the Ocean  
I am the strongest  
My buddy Triton  
He is my largest moon  
I am the planet called Neptune.
