

You Are the Artist: Creating with Paper Cut Outs

Paper can be used in many imaginative ways to create houses, whole towns, animals and vehicles.

This part of the lesson is about creating vehicles and robots.

There are examples where you can just cut out and put together your project. There are also blank outlines and you can color them any way you'd like.

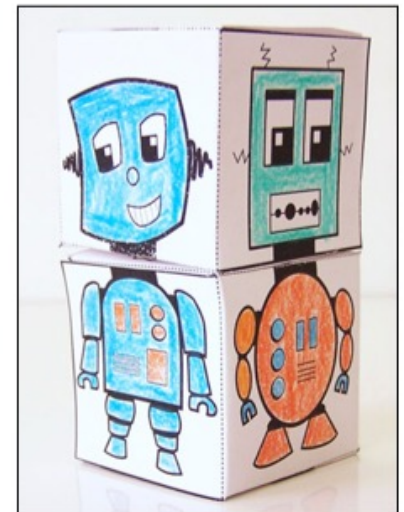

1. Buildings and Towns

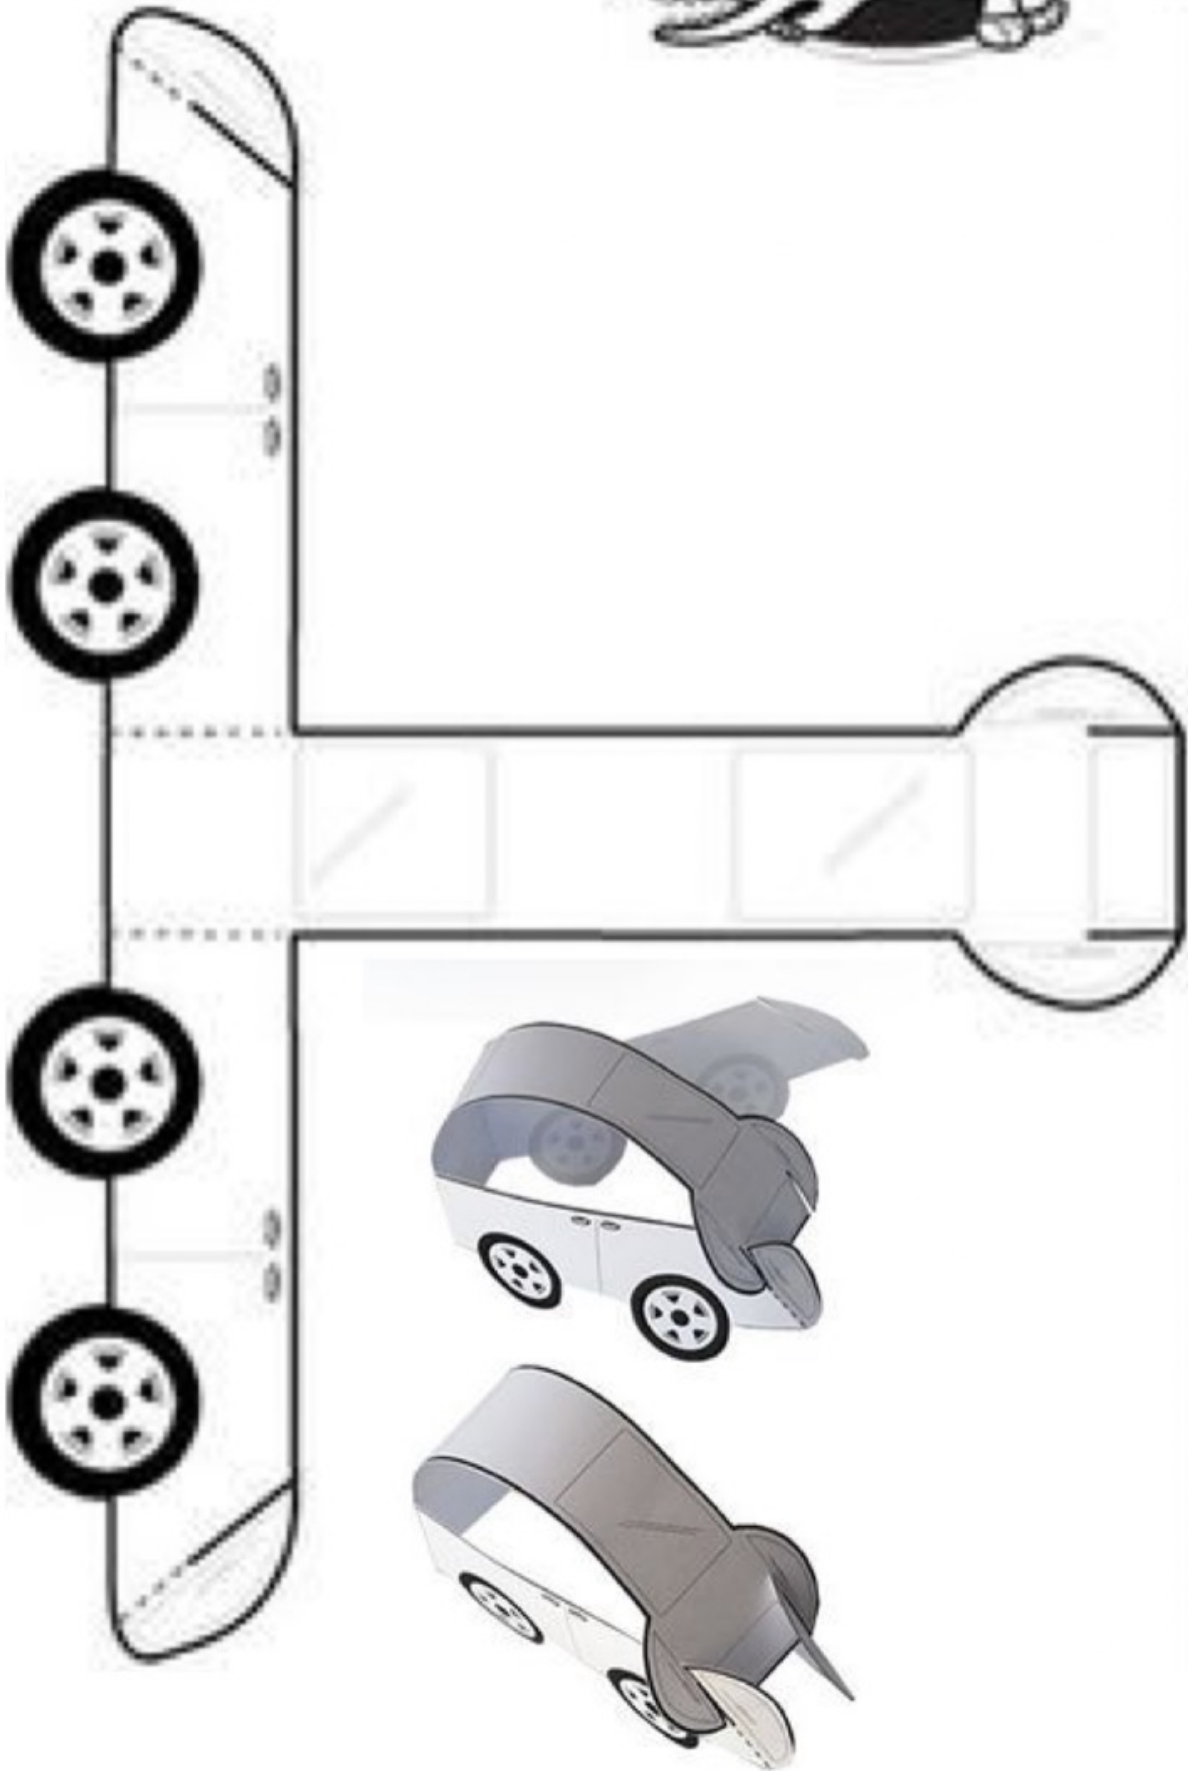

2. Animals

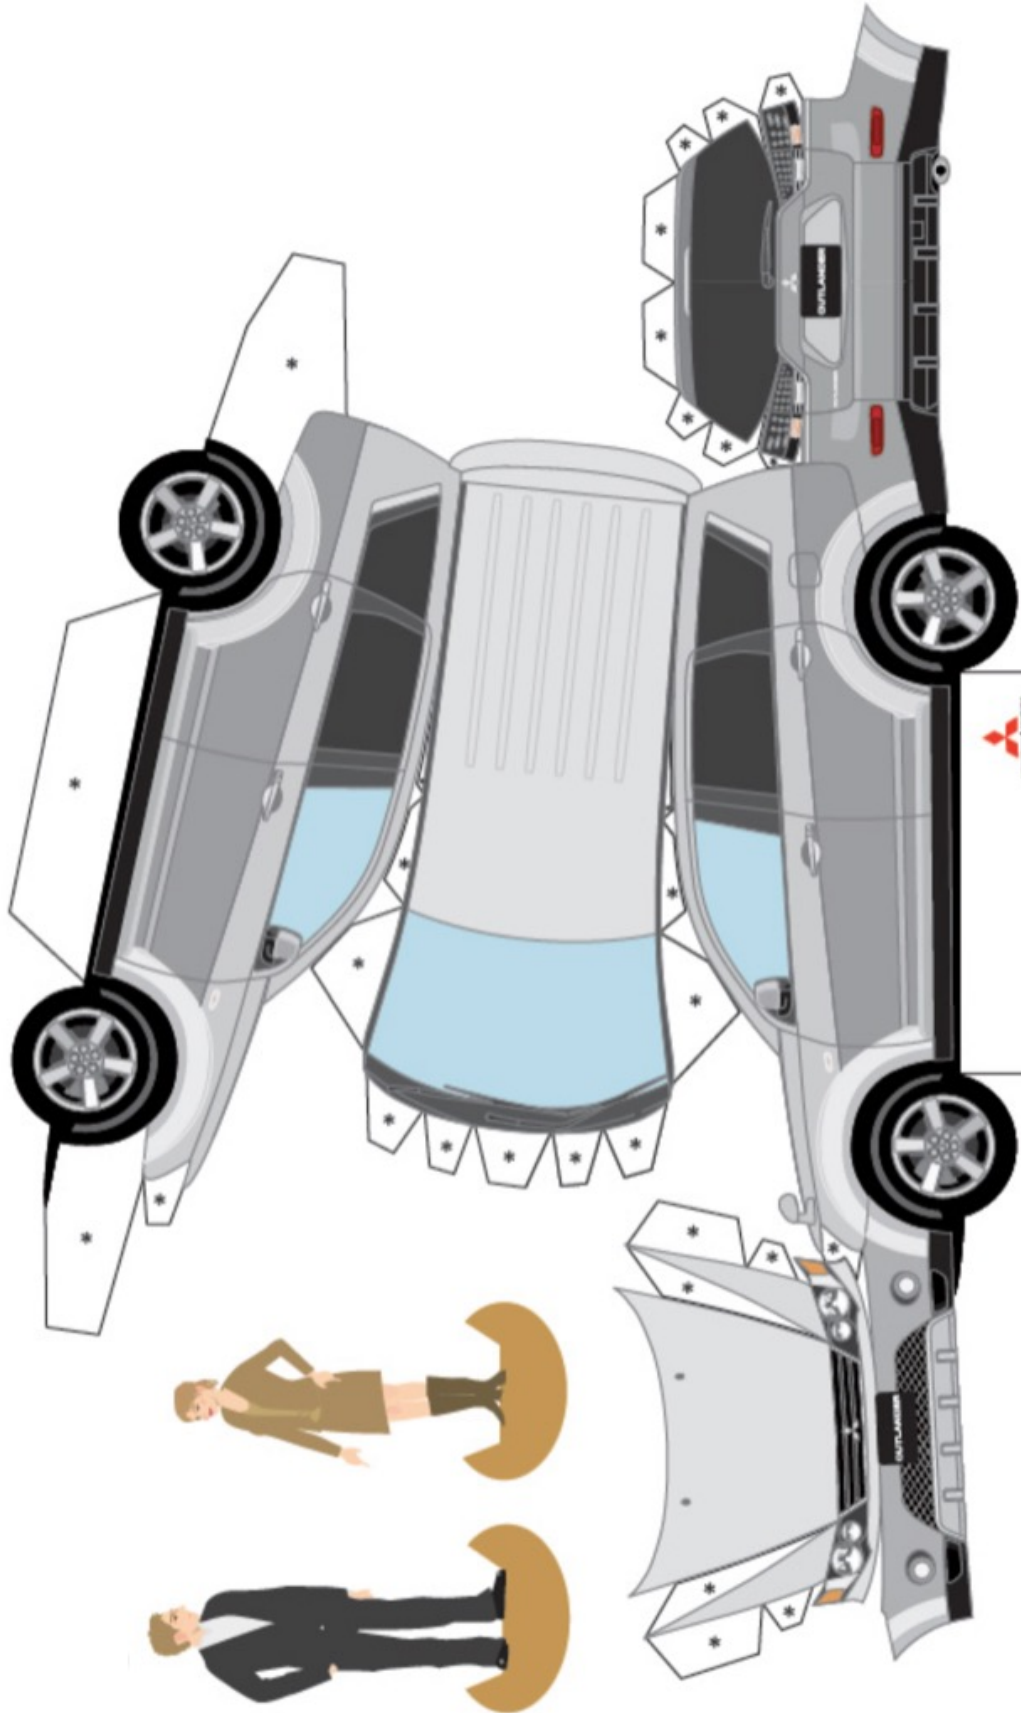

3. Vehicles and Robots

1. **Draw and color** the blanks if you don't want to use the examples
2. **Cut out** the the pieces
3. **Fold** the shapes
4. **Tape or glue** all the tabs
5. **Your creation done** and you can enjoy making up stories about them.

• Dots are to be
glued

Robot Blocks

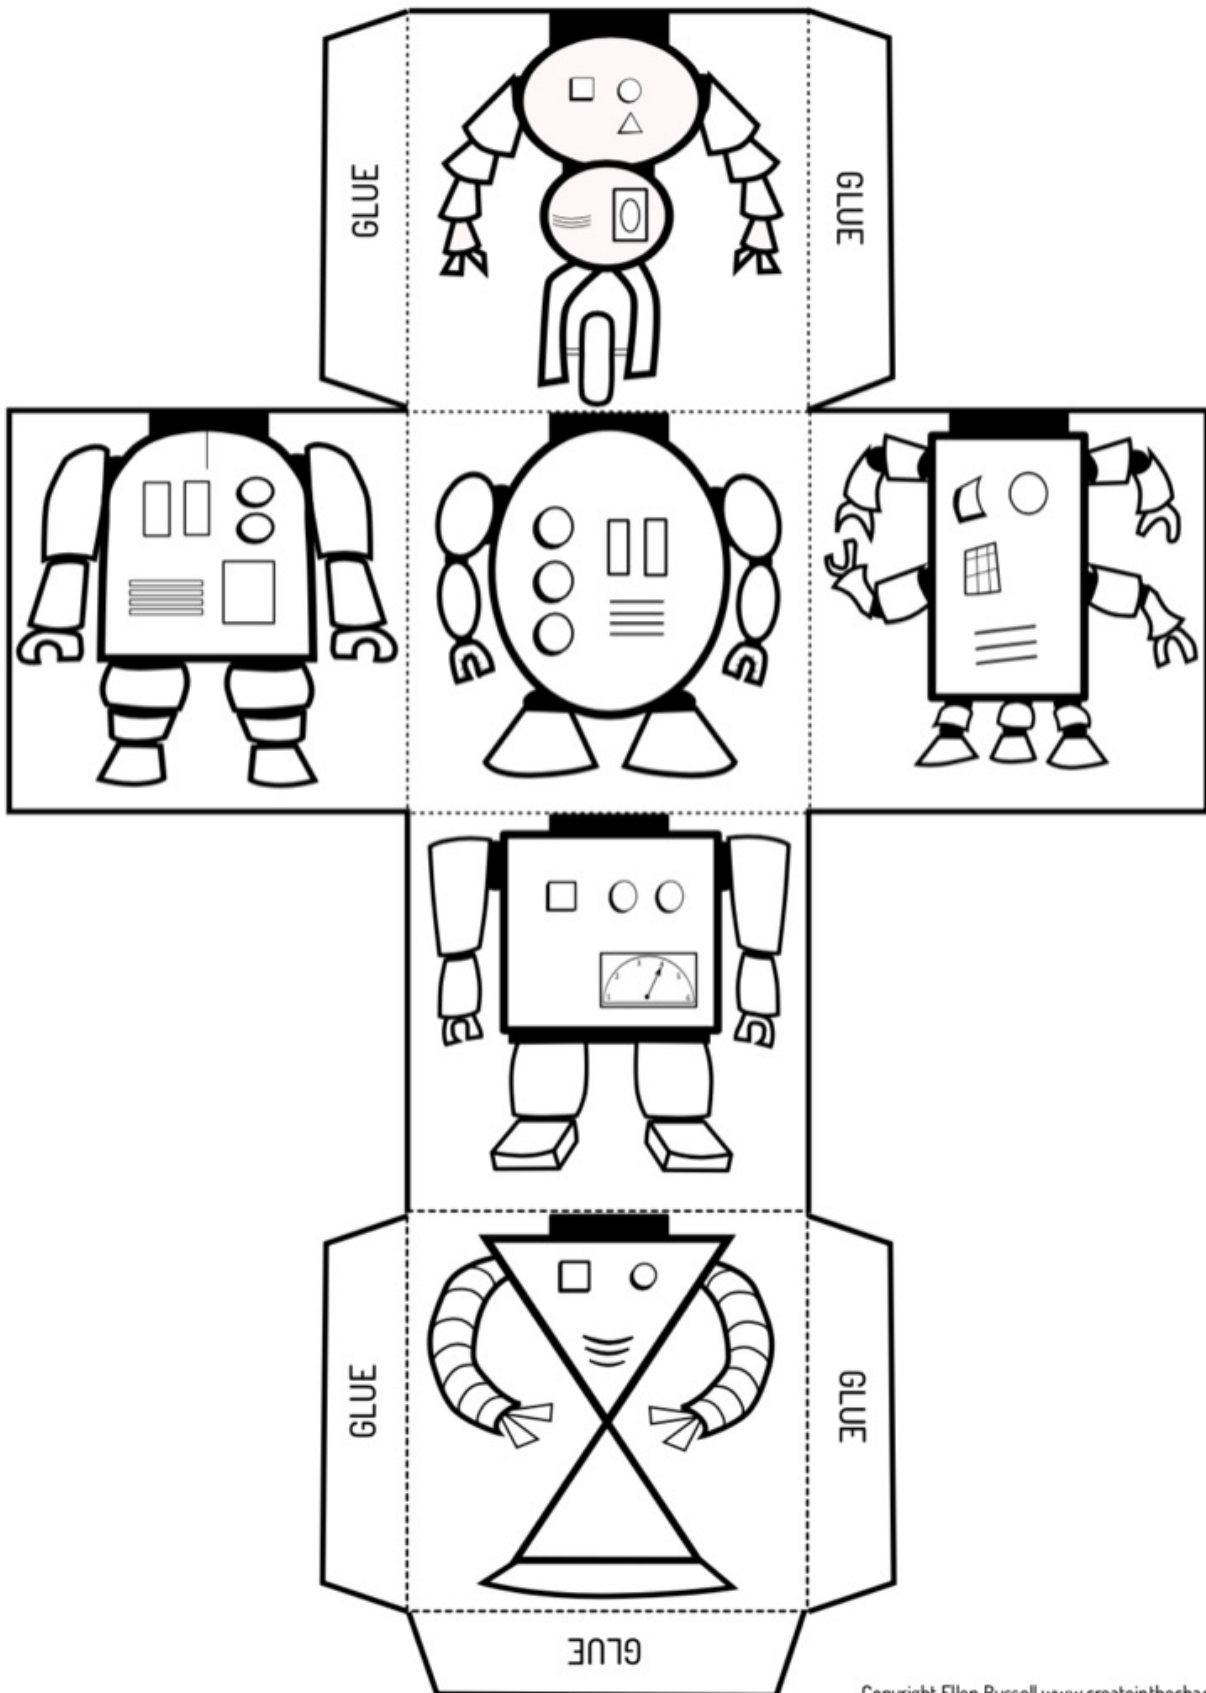

Cut out. Fold out the dotted lines.

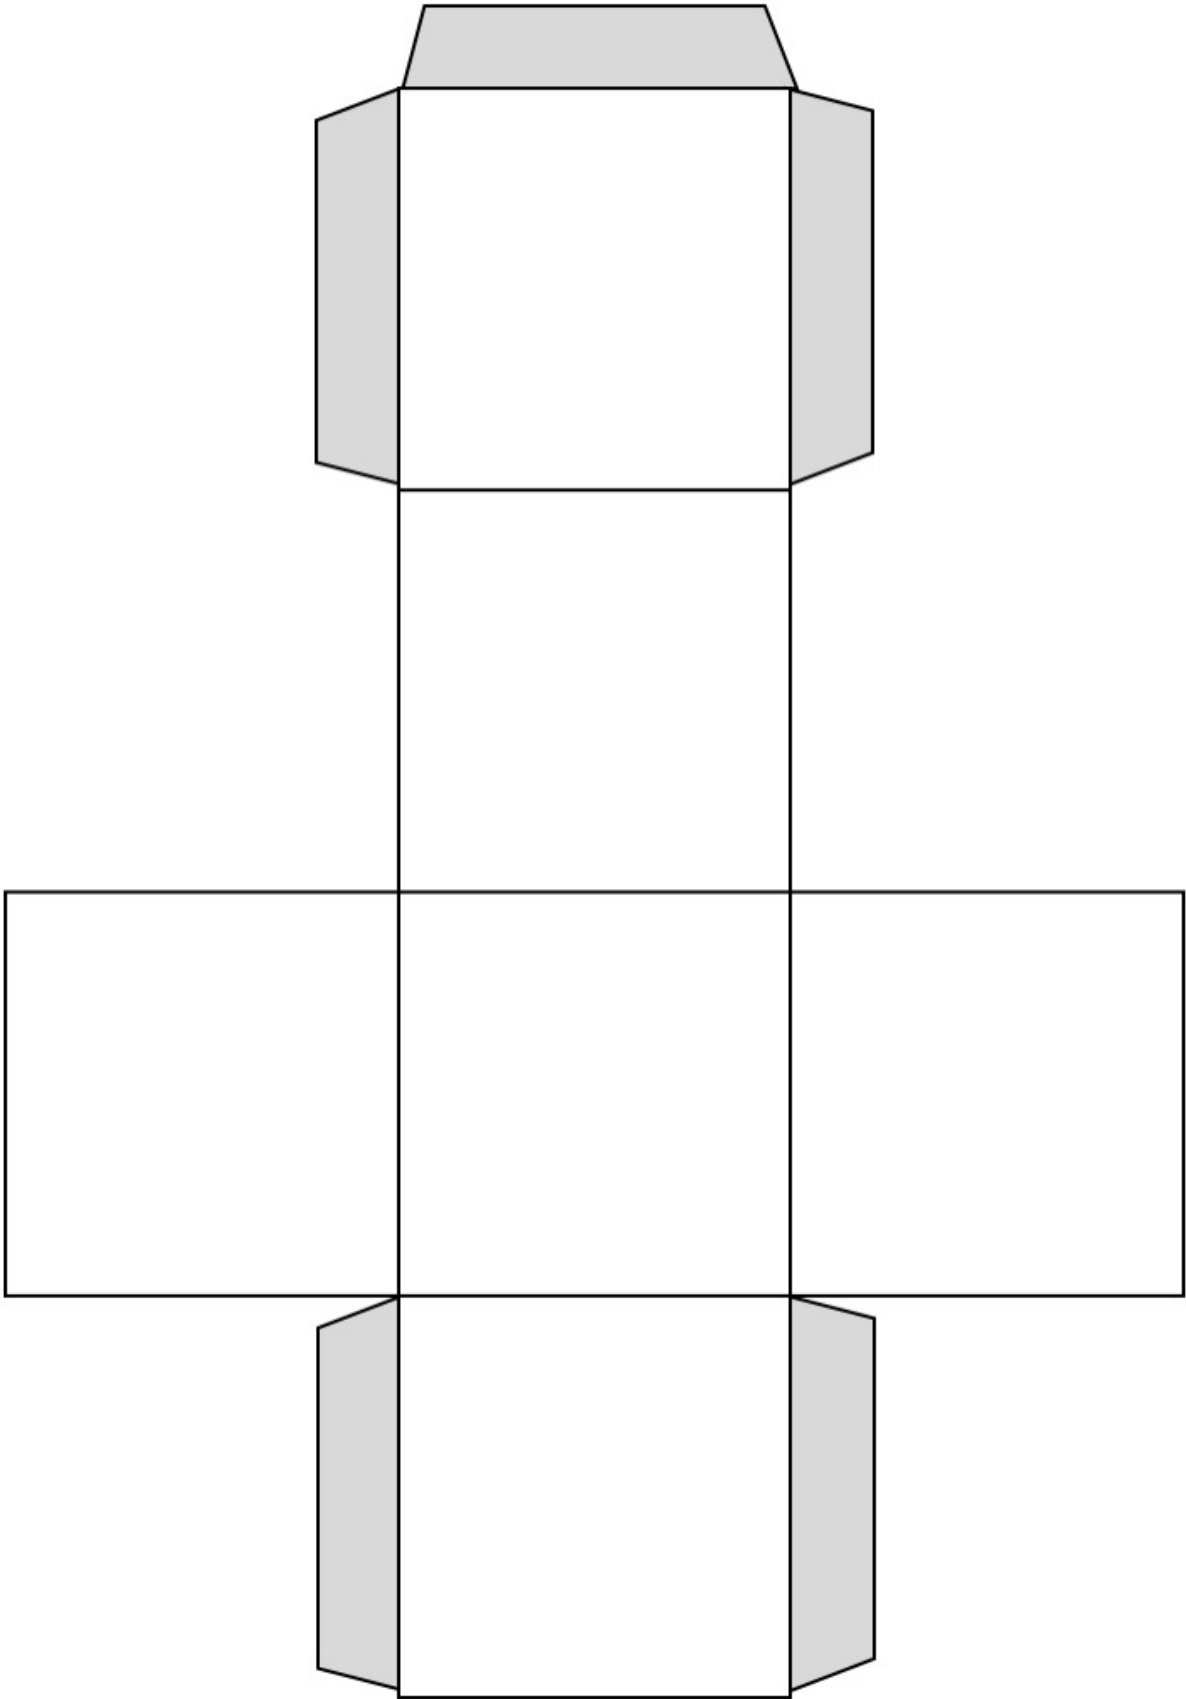

Assemble the cube.

Robot Blocks

Cut out. Fold out the dotted lines.
Assemble the block.

Round Robot

Cut out the robot. Fold the feet up on the dotted lines. Bend the robot into a circle, and glue him together on the glue tab.
