

Found Object Plate Portraits

Build a portrait with various objects you can find around the house!

Step 1: Pick a plate and collect an array of objects from your house including small toys, kitchen items, office supplies, and more!

Step 2: Identify parts of the face and sort the items into categories such as eyes, noses, mouths, hair, ears and such.

Step 3: Create a portrait using the objects. Move the items around to see what works best! Have fun!

Step 4: Take a photo and send it to Ms. Crosby if you can!

Step 5: Return all items where they belong
