

Pre-K Home Learning Plan: *Enrichment*

Dear Pre-K Families,

Here is our plan for Pre-K Enrichment as we close out the school year. This BINGO board was created to mirror some of the fun activities we might do at school to wrap up the year! This enrichment piece is really to support the creation of lasting memories of Coffin School, as well as memories with your family during this time. It is entirely optional!

I will continue to send out read aloud videos and “Mindful Moments” during the next two weeks. If you would like to keep those in your routine, you are more than welcome to, but if summer has started for you, I completely understand!

Please stay tuned for more information about our end of the year celebration! I am so deeply grateful for the time and effort you have put towards staying connected and engaging your child during this time. Although this year has been filled with unexpected twists and turns, I feel very fortunate to have had such a wonderful group of families in my classes during my first year teaching in Brunswick!

Sincerely yours,
Ms. Valente
