

You Are the Artist: Creating with Paper Cut Outs

Paper can be used in many imaginative ways to create houses, whole towns, animals and vehicles.

This part of the lesson is about creating cut out paper animals.

There are examples where you can cut out and put together animals that already have been given details.

There are also blank outlines and you can color them any way you'd like.

1. **Draw and color** the blanks if you don't want to use the examples
2. **Cut out** the the pieces
3. **Fold** the animal shapes
4. **Tape or glue** all the tabs
5. **Your animal done** and you can enjoy making up stories about them.

1. Buildings and Towns

2. Animals

3. Vehicles and Robots

The First Basic Steps to Create a Cut Out Animal

1 Color and cut out the animal.

Color the animal with crayons, colored pencils, or colored markers. Cut out the animal.

2 Crease in the middle.

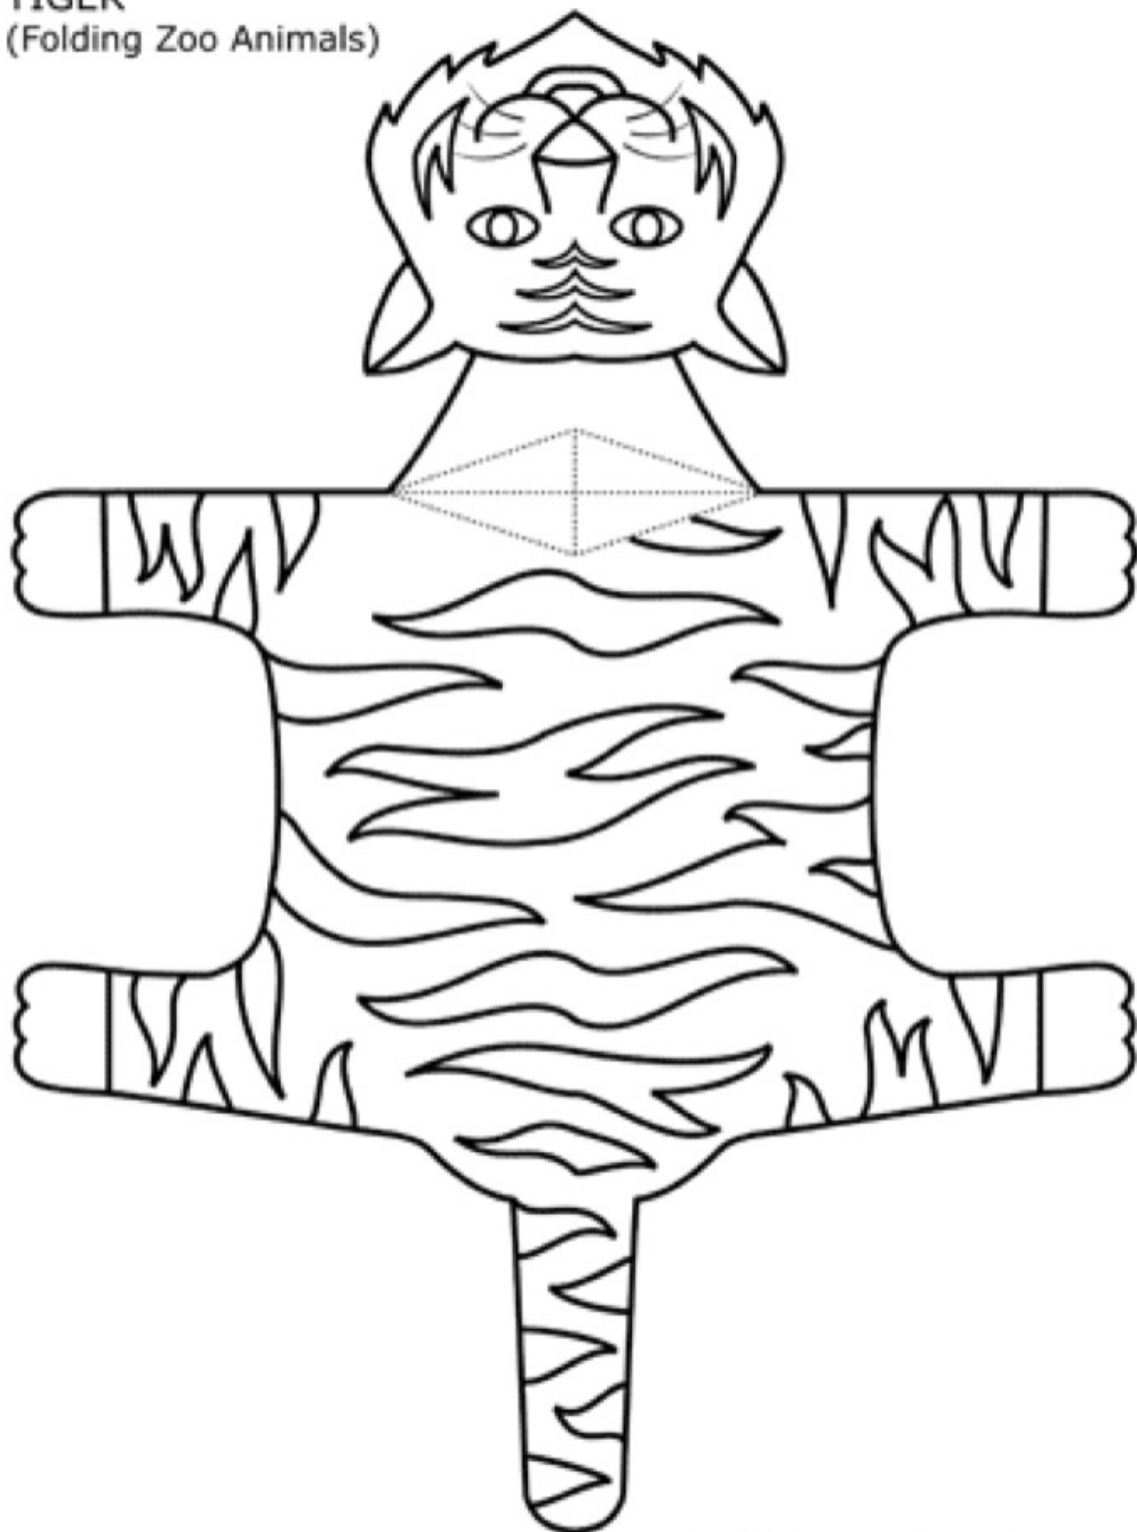

You will need to properly crease your paper animal to make it stand upright. First, fold the animal along the middle and unfold.

3 Crease above the legs.

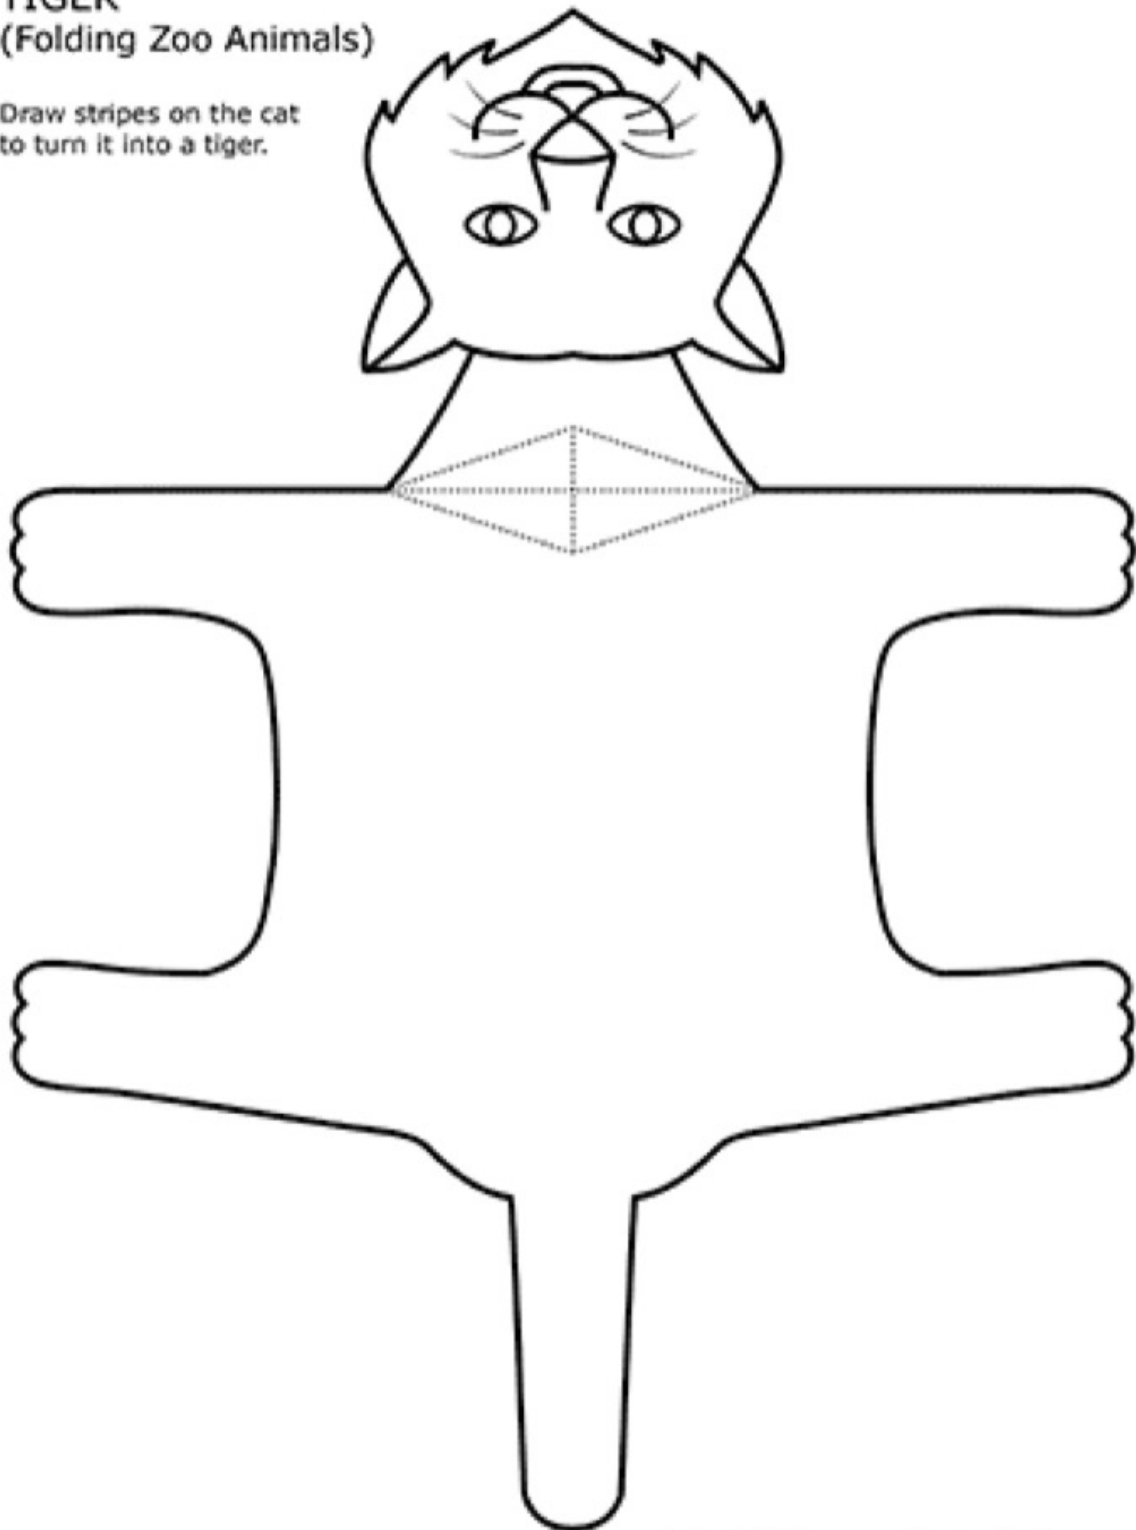

To allow the animal to stand on its legs, fold both sides near the start of the legs inwards. Unfold.

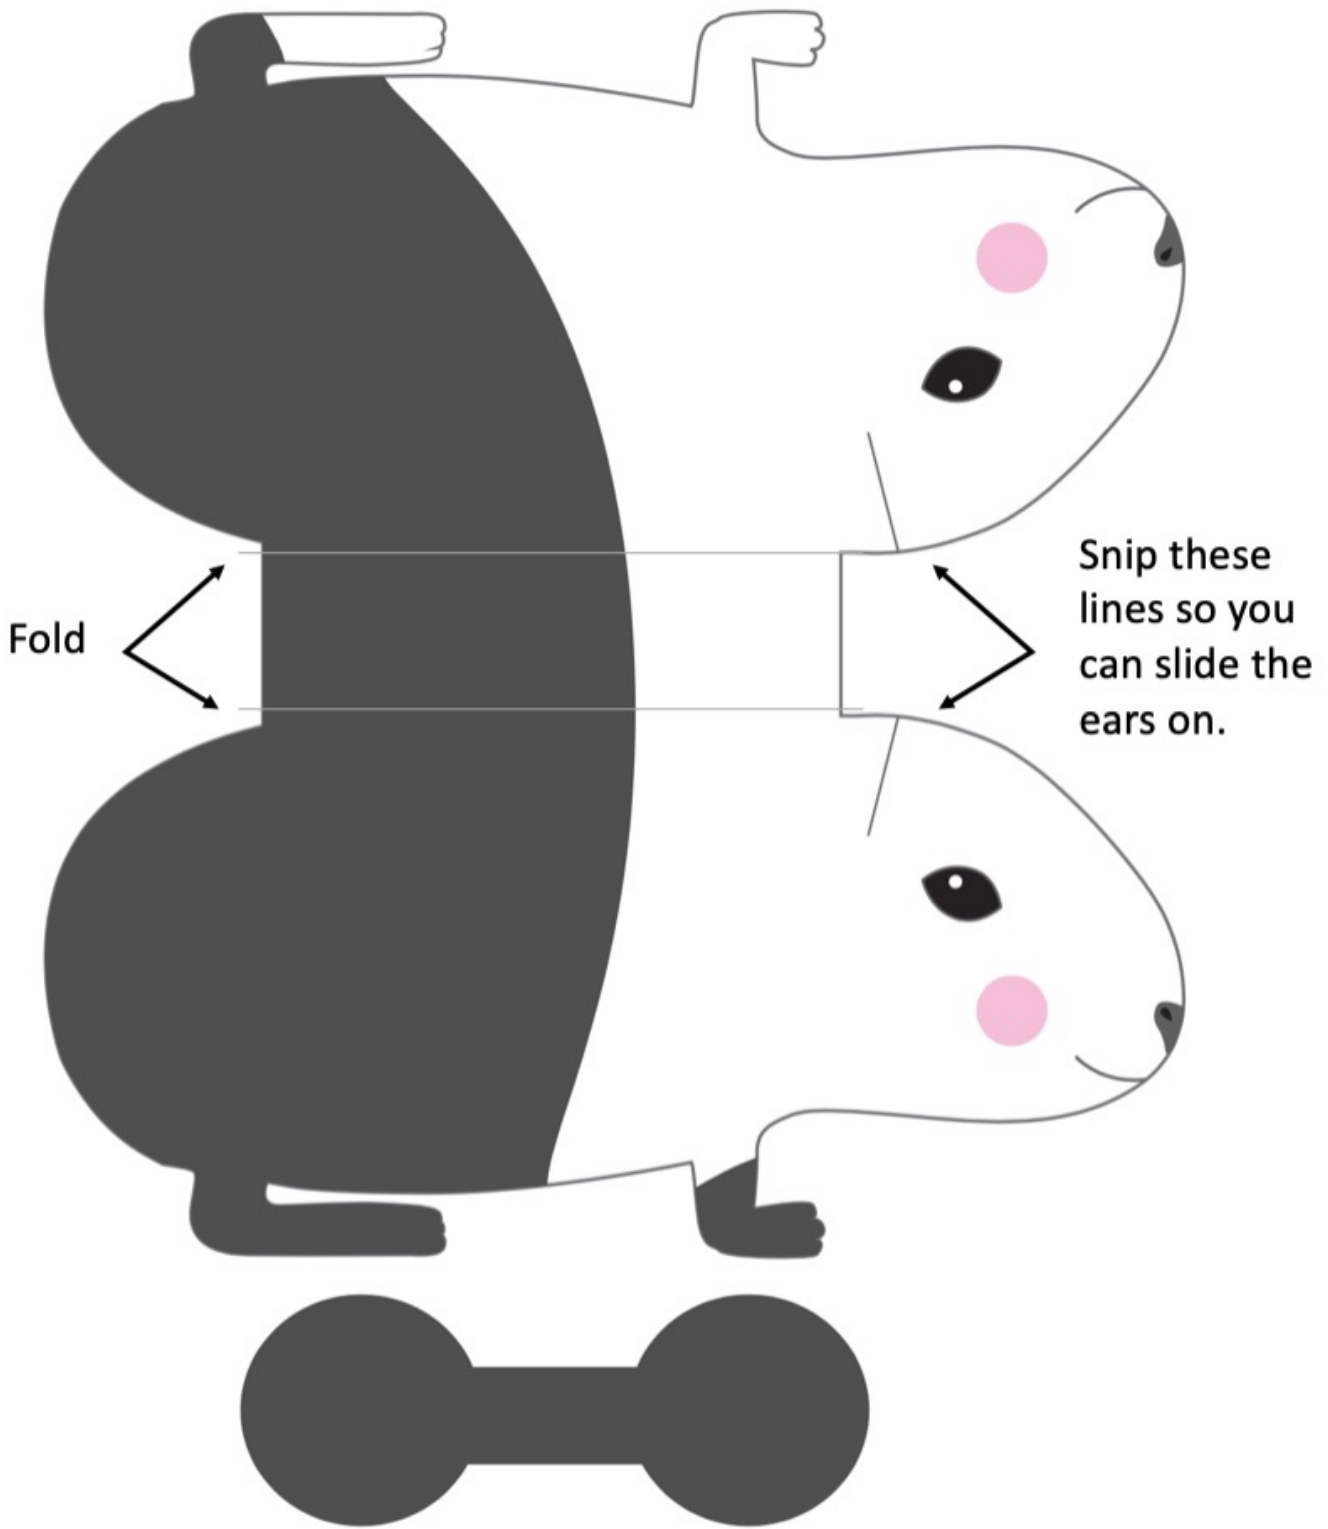

TIGER
(Folding Zoo Animals)

TIGER
(Folding Zoo Animals)

Draw stripes on the cat
to turn it into a tiger.

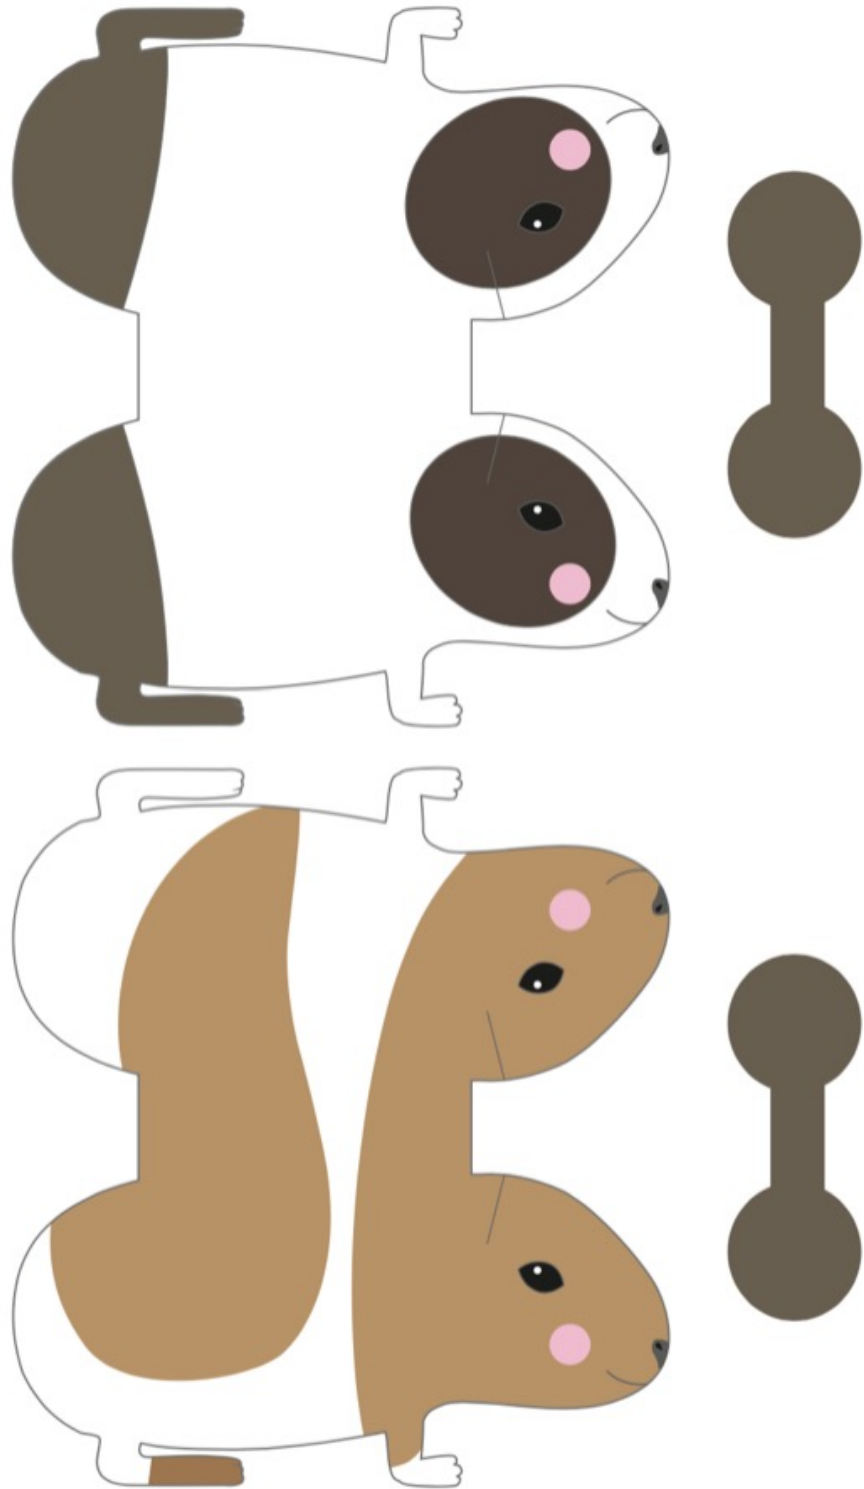

Fold

Snip these lines so you can slide the ears on.
