

Pre-K Home Learning: *Week 9*

Dear Pre-K Families,

Here is the plan for the second week of “Things that Grow.” If you are able, feel free to adapt any and all of these activities to do them outside! So much of this unit is centered on connecting children to the natural world, so the more outdoor time, the better! Please reach out if you are in need of additional resources or extensions for any of these activities.

Many thanks,
Ms. Valente
