

New School Playground Minutes
Alternate Meeting at the Town Hall
April 5, 2018

Present: Jeanne Bee Stinson, Corey Perreault, Lisa Martin

Jeanne Bee Stinson is terribly embarrassed to share that we all sat in the meeting room at the Town Hall, with agendas in front of us that I had printed out, and wondered where everyone else was. I apologize.

We spent some time making some minor revisions to the playground wish list that Jeanne had prepared with help from Playground Committee members here at Coffin. We added the stipulation that the play space have varied activities available in all seasons and discussed that we will need plan for the maintenance challenges for this different type of play space so that it will be clear to the appropriate district staff what will be necessary to keep it at its best (as well as having the space planned with reasonable maintenance in mind.) We also reiterated that a garden with water and easy access for transporting materials needs to remain in our minds as we plan physical space.

We looked at a few catalogues and talked about some equipment ideas – including what kind of items it might be possible to have built by high school students in the district or at Voc. 10.
