4. Classroom Furniture

Furniture should reflect 21st century educational values. Furniture should be adaptable, flexible and offer a variety of options for teachers and students (floor work vs. table work, group work vs. independent work, etc). Discussion about furniture will continue with a possible summer trip to see a showroom or existing school set-up. Reps from 2 different companies will come to a future meeting with samples. Arianna will put together an "all-new" furniture proposal

and budget, and the committee can then prioritize based on the actual FFE budget. All furniture decisions must be made by February 2020.

6. Next meeting Monday June 3rd at 5pm.
