# Alien Invader Story Board

**On this half of the sheet, draw your creature in its natural environment and include its shelter and its food source/prey. In the box on the right, list its structural and behavioral adaptations.**

## Structural Adaptations:

- 
- 
- 

## Behavioral Adaptations:

- 
- 
- 

**On this half of the sheet, draw your creature and the predator that consumes it. Include more components of its natural environment.**

**On this half of the sheet, draw your creature and the situation that causes it to leave its original habitat and “invade” a new habitat in order to survive. Include more components of BOTH environments.**

**On this half of the sheet, draw your creature in its new habitat; include new shelter, food/prey, and predators within its new habitat. In the box, write three problems that your “alien invader” has now caused.**

**Three problems that have now occurred, since your “alien invader” has occupied its new habitat:**
