

## Add a Printer via WiFi

1. Open a document that you'd like to print from Pages or Word.
2. Go to the **File** menu then down to **Print...**

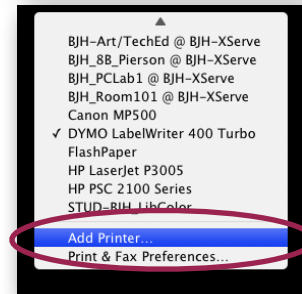

3. Click the tiny arrows in the **Printer Selection** menu.

This list shows the printers you have already installed.

If you haven't installed any, it will only show "Add Printer..."

4. Click **"Add Printer..."** in the printer list.

5. When the Add Printer window appears, click the **"Default"** icon.
6. Click on the printer you wish to add.
7. The **"Name"**, **"Location"**, and **"Print Using"** boxes fill in automatically.
8. The **Name** to identifies each printer.
9. The **Location** box shows the printer's physical location. You can fill in your own description.
10. The **Print Using** selection fills in automatically and should not be changed.
11. Click the **"Add"** button when available.
12. After clicking **Add**, your printer will appear in your list and you're ready to print!
