Getting Started with Google Classroom On a Personal Device

1. Start by checking to see if anyone is logged in to Google in the internet browser.
   - This can be done by going to Google.com. If noone is logged in, the top right corner will look like this:

   - If someone is logged in, it will look like this: (Note: If no picture has been selected, the picture will instead be a letter)

   - **If you are using Google Chrome**, you may be signed into the browser too. This can be checked under the - (minimize) symbol:

2. If the wrong person is logged in, you can click on their picture/letter to sign them out and then add another account.

3. After clicking add another account, have students login with their Brunswicksd.org email account and password.

Getting Started with Google Classroom On a Personal Device

4. After signing in, go to **classroom.google.com** or go to the gray boxes next to their picture/letter, then the chalkboard image for Classroom.

5. Once there, to **add** a class:
   - Click the plus button in the top right corner.
   - Enter the code provided by your teacher(s).

6. Once added, to **enter** a class:
   - Click on the Name of the class.

Getting Started with Google Classroom On a BSD Chromebook

1. Turn on the BSD Chromebook by opening the lid or pressing the power button.

2. On the login screen, put all of the information from your email that comes before the @brunswicksd.org (Ex. 33lastnamei) then click next.

3. On the next screen, put in your password and click next.

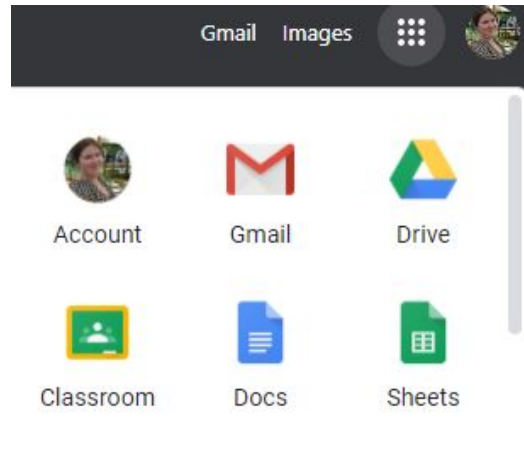

4. When it loads, open the Chrome Web Browser.
