

Today is a review day for the Chapter 7 Test next class. **This review will use a computer cart in class and students will need to go and sign out head phones if they do not have them.**

Today’s class will be broken into 3 parts. I have given recommended amounts of time to spend on each part. But the schedule is flexible and spend time on what you feel will help prepare you for the test.

- I. (25 minutes **silent study**) Start the “*Chapter 7 AP Practice Test*,” completing the multiple choice. If you finish then keep work on the free response questions. The **Substitute Teacher** will tell you when it is time to open your computers. Go to my website and check your answers.
- II. (About 30-35 minutes) Go to my website to review key chapter concepts
 - a) Review picture and “*Glossary of Important Definitions*.” Make sure you know all the concepts presented.
 - b) You will need your head phones. Go to my website and complete the worked out example videos. Here is the website:

<http://www.macmillanlearning.com/Catalog/studentresources/tps5e#>

- Go through these 7 problems:

The screenshot shows the Macmillan Learning website interface for 'THE PRACTICE OF STATISTICS 5E'. The main content area is titled 'Chapter 7. Sampling Distributions' and lists seven example links: 'TPS5e 7.1 p425 Example', 'TPS5e 7.1 p427 Example', 'TPS5e 7.1 p435 Example', 'TPS5e 7.2 p445 Example', 'TPS5e 7.3 p452 Example', 'TPS5e 7.3 p455 Example', and 'TPS5e 7.3 p459 Example'. On the right side, there is a sidebar with a 'Worked Example Videos' section, which includes a link to 'Browse Worked Example Videos links.' and a list of other resources: 'Technology Corner Videos', 'HP Prime Technology Corners', 'Statistical Applets', 'Data Sets', and 'Errata for The Practice of Statistics'.

III. (Rest of the period) Work in groups to complete “*Chapter 7 AP Practice Test*” and Review.

IV. **Homework:**

- a) Complete “*Chapter 7 AP Practice Test*” for HW.
- b) *Chapter 7 Review Exercises* (page 458) – answers posted on my website.
