

SCHOOL SYSTEM COMMITMENT TO STANDARDS FOR ETHICAL AND RESPONSIBLE BEHAVIOR

The Brunswick School Board believes that promoting ethical and responsible behavior is an essential part of the Brunswick School Department's educational mission. The Board recognizes that ethics, constructive attitudes, responsible behavior, and "character" are important if a student is to leave school as a "responsible and involved citizen," as described in the Guiding Principles of the Maine Learning Results. The Board also recognizes that Maine law requires the adoption of a district-wide student code of conduct consistent with statewide standards for student behavior developed by the Commissioner of the Department of Education in compliance with 20-A MRSA § 254(11).

The Board seeks to create and maintain a school climate in which ethical and responsible behavior can flourish. The Board believes that instilling a sense of ethics and responsibility in students requires setting positive expectations for student behavior as well as establishing disciplinary consequences for behavior that violates Board policy and/or school rules. Further, the Board believes that in order to teach ethical and responsible behavior, adults who interact with students must strive to model and reinforce ethical and responsible behavior. To that end, the Board supports an active partnership between schools and parents.

The Board, with input from administrators, staff, parents, students, and members of the community, will adopt a Student Code of Conduct consistent with statewide standards for student behavior ¹that shall include the following:

- A. Define unacceptable student behavior;
- B. Establish standards of student responsibility for behavior;
- C. Prescribe consequences for violation of the Student Code of Conduct, including first-time violations, when appropriate;
- D. Describe appropriate procedures for referring students in need of special services to those services;
- E. Establish criteria to determine when further assessment of a current Individual Education Plan (IEP) is necessary, based on removal of the student from class;

¹The statewide standards are the "core values" identified in the report of the Commission for Ethical and Responsible Student Behavior, Taking Responsibility: Standards for Ethical and Responsible Behavior in Maine Schools and Communities. The core values are: Respect, Honesty, Compassion, Fairness, Responsibility and Courage. The Code of Conduct must be "consistent with," not identical to, the statewide standards developed under 20 M.R.S.A. § 254(11).

- F. Establish policies and procedures concerning the removal of disruptive or violent students from a classroom or a school bus, as well as student disciplinary and placement decisions, when appropriate; and
- G. Establish guidelines and criteria concerning the appropriate circumstances when the Superintendent/designee may provide information to the local police or other appropriate law enforcement authorities regarding an offense that involves violence committed by any person on school grounds or other school property, and
- H. Establish policies and procedures to address bullying, harassment and sexual harassment.

The Board will review Student Code of Conduct periodically, inviting input from administrators, staff, parents, students, and members of the community.

When revising the prescribed consequences for violation of the Student Code of Conduct, the Board shall consider (evaluate and revise, as deemed necessary or desirable) relevant existing district-wide school disciplinary policies and/or consider adoption of new policies that:

- A. Focus on positive interventions and expectations and avoid focusing exclusively on unacceptable student behavior.
- B. Focus on positive and restorative interventions that are consistent with evidence-based practices rather than set punishments for specific behaviors, and avoid “zero tolerance” practices unless specifically required by federal or state laws, rules or regulations;
- C. Allow administrators to use their discretion to fashion appropriate discipline that examines the circumstances pertinent to the case at hand; and
- D. Provide written notice to the parents of a student when a student is suspended from school, regardless of whether the suspension is an in-school or out-of-school suspension.

The Superintendent of Schools will inform students, parents, staff, and the community of the Student Code of Conduct and relevant district-wide school disciplinary policies through handbooks, the Brunswick School Department’s website, and/or other means selected by the Superintendent or his/her designee.
