

# **Brunswick School Department Proposed 2017 Budget**

March 2, 2016

The draft budget that we will begin discussing this evening has several placeholders within it. We have increased health insurance by 10% until we receive our increase from Anthem/Blue Cross.

We also have placeholders in the salary line due to current negotiations between the School Board and the Educational Technicians and Teachers.

As requested by the School Board I have consulted with town officials concerning budget implications for next year. Based on those conversations the 2017 budget will be a maintenance budget, with no recommendations for new positions.

We will provide the district's needs through personnel and program requests and in the next several weeks prioritize the requests as an administrative team. It is my desire to request of the Board due consideration for suggested summer and school year programs that are less expensive than permanent positions and provide needed opportunities for students.
