

# Installation of the new TriCaster40 Broadcasting System in the BHS Studio on August 6th!

The old GlobeCaster on its way out.

Robert, the installer and trainer, was here from 8a.m. to 5 p.m.

Students attended the training session.

The new TriCaster40!

The new system has an awesome "control surface" and new soundboard and is a fraction of the size of the GlobeCaster!
