

**WEIGHTED ACADEMIC AVERAGES
FOR BRUNSWICK HIGH SCHOOL**

The high school will recognize the higher expectations and increased time commitment of students who attempt the more rigorous curriculum associated with honors and advanced placement courses through a weighted average process. Grades earned in all courses will be reflected on all public documents (report cards, transcripts, etc.) as awarded by the instructor. Advanced placement and honors grades will be enhanced through a multiplication factor during the calculation process for class standing only! The factors of 1.10 (A.P.) and 1.05 (Honors) will be transparent to the casual observer, while recognizing and rewarding students who challenge themselves at the highest levels.
